

Your corporate head-shot or commercial product images can greatly enhance the look of your business cards.

Your card can be professionally designed and enhanced for you in the studio.

We have three finishing options for you to suit your marketing and budget needs.

## Press Printed Business Cards

PROFESSIONAL QUALITY

Our Press Printed Business Cards are coated and printed on "Inspire" 12.5pt ultra premium card stock. They can be full color on the front with an option for black and white on the back. These are the best way to present your company.

**Minimum order: 250 cards**

## Photo Printed Business Cards

E-SURFACE OR METALLIC PAPER

Choose from classic E-Surface paper or a striking modern Metallic paper for your photo printed business cards. E-surface prints perfectly matches a regular print quality. Metallic paper offers a vibrant intense color that really stands out. Black and white images tend to look platinum, and sepia takes on a bronze sheen.

**Minimum order: 96 cards**

## Small Batch Business Cards

PHOTO PAPER

Your business cards will be batch printed with eight to a sheet on photo paper.

**Minimum order: 8 cards**
