

Sprays and Textures

If you would like to display your prints flush-mount in a frame, spraying and mounting is a necessity.

Sprays protect the print and can also allow for textures.

Textures make a beautiful and unique finish to your printed piece.

Spray

It is a UV protective coating applied to any size prints from 8x10 through 40x60

Brush Stroke

Looking for that special addition for a painterly look? Our hand done, artist manipulated brushstroke can be added to any print or canvas 5x7 through 40x60

Texture Spray

Available in a linen or pebble texture

Photo Mounting

If you would like to display your prints flush-mount in a frame, spraying and mounting is a necessity.

Mounting reinforces the print, and our options for canvas mounting gives images a whole new dimension!

Regular mounting options include:

Standard **art board**,

beveled mount in black, silver, or gold as well as thick **masonite mount**.

Canvas board is also available and lends itself to a unique texture, as it is a natural material with an irregular weave.

Canvas on stretcher strips allows an image's border to stretch around to all sides for a three-dimensional presentation.
